

Unlocking the potential of working in partnership for innovation:

Some practical considerations

Andrew Fieldsend

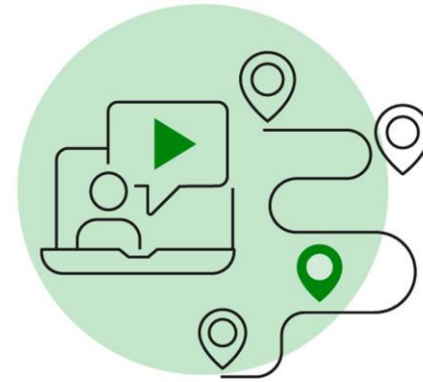

Agrárközgazdasági Intézet Nonprofit Kft., Budapest

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 773418. This document presents the authors' perspective but not the position of the European Commission.

Unlocking the potential of working in partnership for innovation

- **,Linear' and interactive innovation and the EIP-AGRI**
- The ,multi-actor approach' and ,co-innovation'
- Co-innovation needs more than ,complementary forms of knowledge' ...
- ... and embraces more than just ,consortia' and ,projects' ...
- ... but does demand adequate inclusion of actors
- Co-innovation activities do not take place in isolation
